

## President's Greeting: Member Appreciation Month

Happy Member Appreciation Month!

I'm Alison Rempel Brown, president and CEO of the Science Museum of Minnesota

At the Science Museum, we love our members — not just during Member Appreciation Month, but all year long.

Member support helps us create world-class experiences like *Sportsology* and the *Stellar Tours* Live Digital Telescope Show here at the Science Museum.

It also helps sustain programs that reach well beyond our walls:

- Research that is helping our scientists gain a better understanding of the issues that are shaping the world around us.
- Experience development that is helping learners around the world think more deeply about climate change, mental health, race, and identity;
- Outreach programs that reach students and educators across the state each year;
- Professional development programs that build leaders as agents of change in our world, and much, much more,

If you're not a member already, I hope you'll consider joining this powerful community of support that keeps the Science Museum vibrant, innovative, and focused on the changing needs of our audiences

Together, we're building a world in which everyone has the power to use science to make lives better.

Welcome, and thank you!
